Objective:

A highly motivated and detail-oriented software developer with a strong passion for full-stack development. Currently pursuing a degree in Computer Science and seeking opportunities to apply knowledge and skills in real-world projects. Proficient in JavaScript, TypeScript, React, Node.js, and React Native.

Education:

Bachelor of Science in Computer Science (Expected Graduation: Oct 2026)

University of Lagos

- Relevant Coursework: Web Development, Algorithms, Software Engineering
- GPA: 4.8

Technical Skills:

- Programming Languages: JavaScript, TypeScript
- Web Development: HTML, CSS, React, React Native, Node.js, Express.js
- Databases: MongoDB, MySQL
- Version Control: Git
- Tools: VS Code, npm, Yarn
- Other: RESTful APIs, JSON, Agile Methodology

Personal Projects:

1. Take your pills!

Description: Take Your Pills! is a powerful and user-friendly medication tracker designed to improve medication adherence and reduce the risk of overmedication. With its innovative push notification system, this app ensures that at-risk patients stay on top of their medication schedules and never miss a dose.

Technologies: TypeScript, React Native

2. Pennywise Planner

Description: Track your spending with ease by categorizing transactions and setting personalized budgets. Stay on top of your bills and never miss a payment with timely reminders and notifications. Gain insights into your financial habits and identify areas for improvement through detailed expense reports and visualizations.

Technologies: TypeScript, React Native, Async Storage

3. Reuben

Description: Introducing Rueben, your personalized workout companion and fitness app that is designed to help you achieve your health and fitness goals. Rueben is more than just a workout app; it's your dedicated fitness coach, providing tailored workout routines and guidance to keep you motivated and on track.

With Rueben, you can say goodbye to generic workout plans and hello to a personalized fitness experience.

Technologies: JavaScript, React Native, Async Storage

4. Netflix Clone

Description: Dive into a vast library of movies, TV shows, documentaries, and original content, catering to a wide range of interests and genres. Discover new favorites and explore a multitude of options across various categories, ensuring there's something for everyone.

Technologies: JavaScript, React, Node.js, Express.js, MongoDB

5. Twitter 2.0

Description: Connect with friends, influencers, and like-minded individuals in real-time through Twitter 2.0. Share your thoughts, opinions, and updates with the world, and stay updated on the latest news and trends across various topics and interests.

Technologies: TypeScript, Next.js, Sanity, cloudinary

6. Uber Eats Clone

Description: Satisfy your cravings and explore a diverse culinary landscape. Browse through a vast selection of local restaurants, cafes, and eateries, all at your fingertips. Discover new flavors, indulge in your go-to dishes, and experience the joy of having delicious meals delivered straight to your home or office.

Technologies: JavaScript, React Native, Firebase

Work Experience:

Senior Frontend Developer

V model | remote

- Worked for a month on a small development team, contributing to mobile app projects.
- Collaborated with senior developers to implement new features and improve existing functionalities.
- Gained hands-on experience with React Native technologies.
- Participated in daily stand-up meetings and code reviews to ensure code quality and adherence to best practices.

Certifications and Online Courses:

- **JavaScript Certificate** - Sololearn

- Completed: 2018
- Description: Comprehensive course covering JavaScript fundamentals and advanced concepts for web development.

- **HTML Certificate** - Sololearn

- Completed: 2018
- Description: In-depth course covering HTML markup, forms, multimedia, and best practices for web development.

- **SQL Certificate** - Sololearn

- Completed: 2021
- Description: Thorough course on SQL syntax, querying databases, and database management for data-driven applications.

- **CSS Certificate** - Sololearn

- Completed: 2019
- Description: Extensive course covering CSS styling techniques, responsive design, and CSS frameworks.

- **PHP Certificate** - Sololearn

- Completed: 2019

- Description: Comprehensive course on PHP programming, server-side scripting, and interacting with databases.
