Portfolio: https://chibuzormoses.netlify.app/

Objective:

Results-driven and versatile Full Stack Developer with a passion for creating exceptional web and mobile applications. Committed to delivering high-quality code and seamless user experiences. Seeking a challenging role to leverage expertise in JavaScript, TypeScript, React, React Native, Node.js, and other cutting-edge technologies to drive innovation and contribute to the success of forward-thinking companies.

Education:

Bachelor of Science in Computer Science (Expected Graduation: Oct 2026)

University of Lagos

- Relevant Coursework: Web Development, Algorithms, Software Engineering

- GPA: 4.8

Technical Skills:

- Programming Languages: JavaScript, TypeScript

- Web Development: HTML, CSS, ReactJs, Node.js, Express.js, NextJs

- Mobile Development: React Native

- Databases: MongoDB, MySQL, Firebase

- Version Control: Git

- Tools: VS Code, npm, Yarn

- Other: RESTful APIs, JSON, Agile Methodology

Key Projects:

1. Take Your Pills!

   - **Developed a powerful medication tracker app with React Native and TypeScript, ensuring medication adherence and reducing missed doses. Implemented async local storage seamless data management.**

2. Pennywise Planner

   - **Built an intuitive expense tracking app using React Native, enabling users to categorize transactions, set budgets, and receive timely reminders. Leveraged async local storage for a reliable and scalable backend.**

3. Reuben

   - **Created a personalized workout companion and fitness app with React Native, delivering tailored workout routines and guidance to help users achieve their fitness goals. Utilized Node.js and MongoDB for efficient data storage and retrieval.**

4. Netflix Clone

   - **Developed a feature-rich streaming platform clone with React for web frontend and React Native for mobile, providing a vast library of movies, TV shows, and documentaries. Employed Node.js and MongoDB for seamless content management.**

5. Twitter 2.0

   - **Designed and developed a real-time social networking app using Nextjs for web frontend empowering users to connect, share thoughts, and stay updated on trends. Utilized cloudinary and Sanity for reliable backend operations.**

Work Experience:

Senior Full Stack Developer

V model | Remote

- **Collaborated with cross-functional teams to deliver exceptional web and mobile app projects, showcasing expertise in React Native and GraphQL.**

- Led frontend and backend development efforts, ensuring high-quality code, seamless integration, and outstanding user experiences.

- Contributed to daily stand-up meetings, code reviews, and agile planning, ensuring project milestones were met with excellence.

Certifications and Online Courses:

- JavaScript Certificate - Sololearn

  - Comprehensive course covering JavaScript fundamentals and advanced concepts for web development.

- HTML Certificate - Sololearn

  - In-depth course covering HTML markup, forms, multimedia, and best practices for web development.

- SQL Certificate - Sololearn

  - Thorough course on SQL syntax, querying databases, and database management for data-driven applications.

- CSS Certificate - Sololearn

  - Extensive course covering CSS styling techniques and responsive design principles.

Additional Information:

- Strong problem-solving skills and a passion for tackling complex challenges.

- Proven ability to adapt quickly to new technologies and programming languages.

- Excellent communication and teamwork abilities, thriving in collaborative environments.

- Strong attention to detail, ensuring clean and efficient code.
